www.linkedin.com/in/zolb646/ 

Junior software engineer with hands-on experience shipping web and mobile product features across 15+ project and feature deliveries through internship work, hackathon delivery, and team-based collaboration. Built with React, React Native, TypeScript, and Node.js, with practical experience in API integration, authentication flows, offline-first patterns, and responsive product development from requirement gathering to working implementation.

SKILL

- JavaScript, TypeScript, HTML, CSS
- Rest API, GraphQL, Apollo Client, Apollo Server
- Jest, unit test, integration test, e2e test
- CI/CD, Docker, Git
- React, React Native, Next.js, Node.js
- MongoDB, MySQL, PostgreSQL, Prisma
- Supabase, Firebase, Cloudflare
- MediaPipe, camera detection, dataset integration

EXPERIENCE

Pinecone Academy

Full Stack Software Engineer Intern

Feb 2026 - Apr 2026

- Contributed to a web application with real-time camera-based detection, helping build detect, learn, and practice flows for end users.
- Worked across the full stack using Next.js, React, GraphQL, Prisma, and PostgreSQL to support vocabulary management, learning content, and application data flows.
- Helped integrate MediaPipe-based landmark processing, ASL, WLASL, and MNSL dataset handling, along with admin tooling for managing entries and motion media.
- Helped build a 2nd-place PineQuest hackathon project, an AI-powered LMS exam platform using Next.js, Expo, and Cloudflare Workers, with mobile exam proctoring, real-time cheat alerts, PDF-based question extraction, and teacher/student exam workflows.
- Collaborated in a team environment to turn product requirements into working features, reusable components, and maintainable application code.

Software Engineering Bootcamp

Jul 2025 - Feb 2026

- Strengthened full-stack engineering foundations through intensive hands-on training in modern web application development.
- Built practical projects with React, Next.js, Node.js, and React Native, translating requirements into working product flows.
- Implemented REST API integration, authentication flows, and local data handling patterns in project-based web and mobile applications.
- Improved problem solving, collaboration, and implementation discipline through structured bootcamp projects and team-based development practice.
- Practiced translating product requirements into clean components, API integrations, and responsive user-facing features.

EDUCATION

Pinecone Academy Nest Academy

Jul 2025 - Apr 2026

ACHIEVEMENTS & CERTIFICATES

PineQuest S3 Hackathon - 2nd Place

2026

Recognized for developing an AI-powered LMS 2.0 exam module platform with proctoring, exam workflows, and automated question support.

Pinecone Academy Certificate

2026

Completed software engineering bootcamp training focused on full-stack web and mobile application development.
